Check / Cash / Venmo / Cashapp 0% Surcharge

LA REELS DEFINITION KEY

Pre-Existing Footage: Footage that has already been filmed and edited from Raw footage into it's final export; either in a film, tv show, already produced project, etc.

Raw Footage / Raw Audio: Footage that is directly from the camera or audio recorder. This footage has not been edited, has not been synced, and/or has not been color corrected. (*Raw Footage/Audio is subject to a different rate charge for EDITING, SYNCING and MASTERING).

Clip: A clip is defined as 1 scene under 3 minutes.

Timecode: The run time of any movie file from 00:00:00 (Hours: Minutes: Seconds) seconds to it's final time. It usually appears as a white set of numbers on the screen, but can also be taken from the play head of any movie/video file.

In & Out Points: The parts in the Timecode that your performance is located in each clip, starting with the start time (In) and your end time (Out). Example, 01:35 - 2:14. This is IN @ 1min 35 secs and OUT @ 2 min 14 secs.

*We do not accept or rip files from DVDs.

**Any links provided from Youtube, Vimeo and other upload-able sites are most likely able to download with ease, sometimes they may not be availalbe. Be sure to provide the available links and TIMECODES where you appear.

***Any links from professional video on demand services i.e. Netflix, Hulu, Amazon, HBOGO, iTunes, etc will have to be ripped and are subject to the \$50/Clip Fee.
